

wireless EMG, accelerometers
and data logger

The new PicoEMG,
a new architecture
for better signals and usability.

The logo for cmeta features the word "cmeta" in a sans-serif font. The 'c' is white, and the 'meta' is blue. To the left of the 'c' is a blue circular icon with a spiral pattern.

cmeta

TECHNICAL SPECIFICATIONS

- By far the smallest in the world, less than 7 grams
- Entirely without cables
- Compatible with Wave Plus receivers and with standard ECG electrodes
- Easily variable intra-electrode distance
- Extremely low artifacts thanks to the symmetrical construction
- Memory on board and accelerometer
- More than 12 hours battery life
- Inductive recharge
